THE EXCELLENCE OVERFLIGHT TOUR (55 min)

Cirques, volcano, waterfalls...

The magic of Reunion Island

An unforgettable flight with overview of some unique places: Famous Cilaos, Mafate and Salazie (Trou de Fer) cirques, with their lush vegetation and incredible reliefs. The volcano and its crater; the Piton des Neiges, which is the highest point of the island (3070 m) and the highest peak in the Indian Ocean; and the

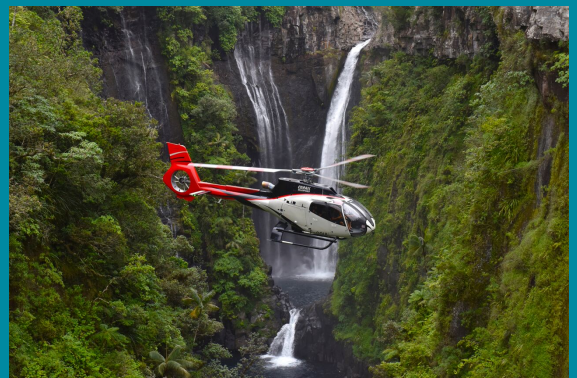

most beautiful waterfalls of the island (Bride's Veil Waterfall, White Cascade, Grand Etang and Takamaka). After seeing those breathtaking landscapes, fly back to the lagoon. Great memories and delight guaranteed.

THE FULL OVERFLIGHT TOUR (45 min)

The wonders of Reunion Island

Discovery of Cilaos, Mafate and Salazie (Trou de Fer) cirques with their green reliefs, in a park registered World Heritage of UNESCO. Overview of the Piton de la Fournaise (2632 m), which is one of the most active volcanoes in the world.

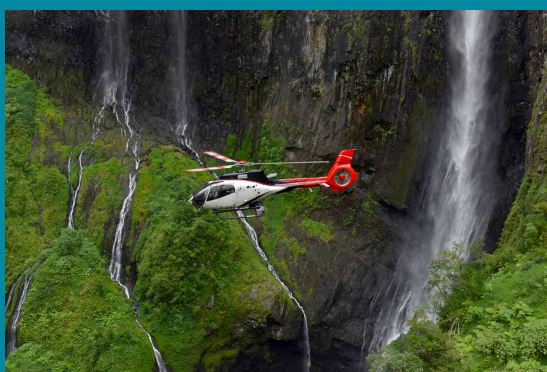

After seeing those landscapes, fly back above the azure lagoon ... A unique journey with good memories guaranteed

A THE HEART OF THE WATERFALLS TOUR (50 min)

Cirques, waterfalls... Reunion Island's magic at its best.

Treat yourself with the beauty of the most spectacular waterfalls of the island, the high point of your trip ! Flying along the Cirques of Mafate and Salazie, come across the famous Cascades Blanches and Cascades Fleurs Jaunes and also the Voile de la Mariée and the entrance of the breathtaking Trou de Fer via the Bras de la Caverne. Then enjoy the Takamaka and Grand Etang waterfalls located

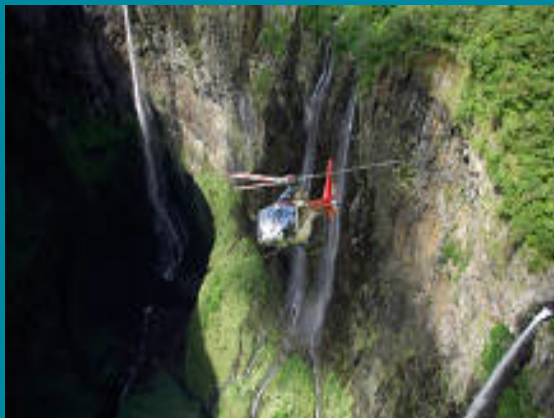

in the eastern part of the island and then the Cirque of Cilaos and the chimney of the Piton des Neiges. Fly over the lagoons on your way back.

(Uncontracted pictures and description)

LES 3 CIRQUES AND THE TROU DE FER TOUR (35 min)

The 3 Cirques of the Island (Mafate, Cilaos and Salazie) are protected into a national park and recognized as World Heritage by the Unesco thanks to their outstanding beauty. There was once a fourth Cirque which is now filled and covered with a thick tropical forest into which a jewel can be found: the spectacular Trou de fer and its 300 metres deep shaft surrounded with waterfalls. Not to be missed ! Fly over the lagoons on your way back.

2 CIRQUES AND THE TROU DE FER TOUR (25 min)

Unforgettable memories

Discover the grandiose Cirques de Mafate and Salazie, the much talked-about Trou de Fer and its 300 metres deep shaft but also mountainous plains surrounded with peaks. Reunion Island has even more to offer thanks to the 200 km coast and the Saint-Pierre lagoon you fly over on your way back. A patchwork of colours and emotions, a great panorama of Reunion Island.

THE VOLCANO TOUR (25 min)

Discover the sea of lava of the Piton de la Fournaise

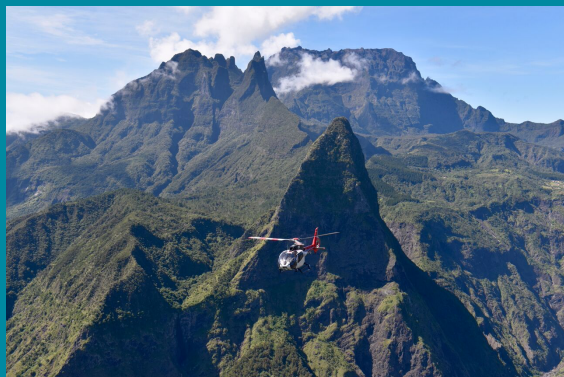

Reunion Island was born 3 million years ago. This tour takes you back back to the origins of the earth. Flyover the Piton de la Fournaise and its lava flows creating the unique reunionese landscape and then enjoy an outstanding view of the Dolomieu and Bory craters. Out of time images and breathtaking scenery. An enchanting world displaying lava fountains and reddish flows. Outstanding. Departure from Pierrefonds airport

THE CILAOS TOUR (15 min)

Brief viewpoint over a grandiose scenery

Fancy 15 minutes at the heart of the National Park of Reunion Island ? When looking from the sky , our island discloses the full richness of its nature and the greatness of its landscapes. An exceptional and protected territory at the heart of our national park recognized as World Heritage by the Unesco. Thanks to Corail Helicopters, safely flyover this jewel of nature displaying wonderful relief and discover the daily life of its inhabitants. Cilaos maybe the largest Cirque in terms of population, but still not the easiest one to tame...

THE MAFATE TOUR (15 min)

Discover a unique place in the world

The wildest Cirque of the island but also probably the most beautiful as you enter only by foot or by helicopter. Fly over Mafate and discover this luxurious setting proudly protected from modernity by its inhabitants. Reunion island's original wilderness at its best where endemic birds may still settle.
